County of San Luis Obispo

TO: Board of Supervisors

FROM: Public Works

Michael Britton, Project Manager

VIA: Dave Flynn, Deputy Director

DATE: 7/14/2015

SUBJECT: Request to approve an agreement with the Upper Salinas – Las Tablas Resource Conservation District for Implementation of Santa Rosa Creek Bank Stabilization – Gerhardt Property, along Santa Rosa Creek Road in the community of Cambria. District 2.

RECOMMENDATION

It is recommended that the Board approve and direct the chairperson to sign the agreement with the Upper Salinas – Las Tablas Resource Conservation District for Implementation of Santa Rosa Creek Bank Stabilization – Gerhardt Property, along Santa Rosa Creek Road in the community of Cambria.

DISCUSSION

Over the last decade, Santa Rosa Creek Road has experienced a number of road slope failures primarily due to erosion caused by Santa Rosa Creek which runs alongside the road. At Milepost 2.9, the creek has impinged on the slope supporting the road and has begun to undermine the roadway. Staff has retained a geotechnical expert to perform an analysis of alternatives. Outside an expensive alternative to realign the roadway, the work at this site must first prevent further creek erosion.

The Upper Salinas – Las Tablas Resource Conservation District (US-LTRCD) has been in development of a creek stabilization plan with the adjoining property owner (Gerhardt). As our aim to stabilize the creek slope is consistent with US-LTRCD work effort, we seek to partner on development of a creek stabilization project and ultimate implementation of a solution. Subsequent to the creek stabilization work, the County can then reestablish Santa Rosa Creek Road to a full width roadway, improving public safety – while minimizing adverse impact to private property.

OTHER AGENCY INVOLVEMENT/IMPACT

The recommended agreement is with the Upper Salinas - Las Tablas Resource Conservation District. The US-LTRCD will work directly with the affected property owner and will secure any property access rights necessary to perform their work. No other agencies are involved.

County Counsel has reviewed the agreement for cause and effect.

FINANCIAL CONSIDERATIONS

The proposed Agreement for US-LTRCD is for compensation of \$67,005.

This project is a multi-year maintenance project budgeted in Road Fund for FY 2015-16. The estimated project costs to stabilize the bank along Santa Rosa Creek are \$175,000. The project will be funded from the Road Fund.

RESULTS

Approval of the attached agreement will allow the County to partner with the US-LTRCD to pursue bank stabilization alternatives that are beneficial to the creek and allow for proper reestablishment of the road above with minimal impacts to the creek and adjacent property owners, providing a well governed, livable and safe community.
